## Homeless Coalition Looking for Volunteers

A story from KXXV tells us that The Central Texas Homeless Coalition is looking for volunteers to assist in a multi-county effort to assess the size of the homeless population.

The "point in time" count will take place on January 26<sup>th</sup> and is set to take place between 6am and 7pm, though volunteers are not required to assist all day.

The coalition, which counts in Bell, Coryell, Hamilton and Lampasas counties, is in need of roughly 50 more volunteers as of Tuesday evening.

Coalition president Bobby Ehrig explained the count has an impact on the federal funding received locally to assist those experiencing homelessness and poverty.

"We want to provide the most updated data of the snapshot of our homelessness so that our federal elected officials can make decisions on funding, housing vouchers and those types of things," Ehrig said.

Volunteers do not need to meet any particular experience, and will undergo brief training before the count date.

## Egg Prices too High

According to an article by Axios, while grocery items have broadly gotten more expensive, no food item has been impacted by inflation as much as eggs and their prices often give a clue about the current economic environment.

That's because eggs are not only an ingredient in many other foods and meals, they're also the product of other food sources, Axios' Hope King writes.

Egg prices were on average \$4.63 for a dozen Midwest large eggs Friday down from \$5.46 in the days before and after Christmas, according to Urner Barry's Egg Index. That's more than a gallon of gas in many parts of the country.

Midwest large eggs — the benchmark for eggs sold in their shells — were \$5.13 Tuesday and dropped to \$4.98 Wednesday, then \$4.78 Thursday before dropping again Friday, Urner Barry's data shows.

A dozen large eggs cost approximately \$1.50 in early January 2022 and 94 cents in January 2021, the research firm found.

The bird flu outbreak, the worst in U.S. history, and consumer demand have also driven up prices. The avian influenza outbreak that began in February 2022, has killed approximately 60 million birds, which includes 41 million commercial egg-laying hens, Karyn Rispoli, editor of the Egg Price Current for Urner Barry, told Axios.

Meanwhile, wholesale prices are now starting to retreat from December as we move past the holiday baking season and high holiday demand, said Brian Moscogiuri, a global trade strategist at Eggs Unlimited, an egg supplier based in Irvine, California. Egg prices at stores might take longer to drop because retail pricing often lags the wholesale market, Moscogiuri told Axios.
