Hanna Springs Pool Information

Finley de Graffenried, Lampasas City Manager released the following statement Friday after we had gone to print: "City Investigating Incident at Hanna Springs Pool" "On June 24, 2021 at approximately 3:45 p.m. three patrons of the Hanna Springs Swimming Pool were overcome and/or complained about an odor that could have possibly been chlorine. Pool staff immediately contacted emergency personnel who responded to render aid to those affected. All three patrons were examined further at Rollins Brook Hospital and released by 7:00 p.m. The pool's pump and motor were temporarily off for repairs, and re-started approximately 20 minutes prior to the incident, however; it is undetermined if any correlation between the repairs and the incident exists. City Parks staff and Fire Department personnel inspected all mechanical areas and found no indication of mechanical failure or leak. The City has also discussed the incident with Commercial Swim, a central Texas pool contractor, for any additional insight on the incident. Pool mechanical systems were inspected overnight and early this morning and found to be operating normally. The pool water is filtered, and disinfected using liquid bleach.

If further information is needed, or if you care to further report, please contact Chris Eicher, Parks and Recreation Director, 512-734-0228; or Finley deGraffenried, City Manager, 512-734-6375

Coronavirus and the Texas Economy

According to data gathered by the Texas Tribune, Texas lost 1.4 million jobs in the spring of 2020 due to COVID-19 and the unemployment rate peaked at 12.9% in April 2020.

Sales tax revenue dropped by almost \$2 billion in one year. By May 2021, there were strong signs of recovery — 1 million jobs and \$1.6 billion in revenue were regained.

The statewide unemployment rate had been slowly declining for nearly a decade until April 2020, when the rate surpassed Great Recession highs as Texas scrambled to shut down its businesses. More than 1.4 million Texans lost their jobs due to the pandemic in March and April 2020, according to the TWC. (Texas Workforce Commission)

As of May 2021, the state had gained back around 1 million jobs since the previous spring. In April and May 2021 alone, 47,400 jobs were added in Texas. The unemployment rate dropped to 6.5% in May 2021 — higher than pre-pandemic levels, but around half of the record-high 12.9% in April 2020.

The unemployment rate during the height of the pandemic varied across the state. Joblessness was the worst in South Texas, where many people work in oil fields. During the pandemic, Starr County recorded the highest unemployment rate out of all Texas counties at 21.7% — one in five of its residents age 16 and older were unemployed in April 2020.

In May 2020, the sales tax revenue was down 13% from what the state collected in May 2019, a decrease of around \$395 million.

But the May 2021 receipts showed that spending was picking back up. Sales tax revenue in May 2021 was up 30.1% compared to May 2020 and up 12.9% compared to May 2019. The retail sector saw a particularly significant increase as customers returned to stores opening at full capacity.
