The Weather

The High yesterday 57° The Low morning 32°

Today: Becoming mostly cloudy and an expected high near 52°, due to the lingering cloud cover. The wind will be N-NE at 5-10mph.

Tonight: Look for mostly clear skies and a low near 29° and winds will be calm.

Saturday: Mostly sunny then becoming mostly cloudy in the afternoon with an advancing weather system. Winds will be light from the east and the high will be near 52°.

Saturday Night: Mostly cloudy with a low near 35°. Winds will be E at 5-10 mph gusting to 20mph. There are precipitation chances across SW Central Texas after midnight, with snow possible. The NWS tells us that areas along and west of 281 may see 2-4" of snow.

Sunday: Cloudy skies with a 90% chance of precipitation, and the possibility of rain changing to snow and a high near 41°. Winds will be NE at 10-15 mph gusting to 20 mph.

Overnight Sunday: Mostly cloudy and cold with a 30% chance of rain or snow and a low near 29°. Winds will be N-NW near 10 mph with possible gusts of 20mph.

It's Friday!

And "Houston,
we have a problem!"

Well, it's not Houston, it's all over the world. For right now, we here in America are worrying about getting through the next couple of weeks until a new administration goes into place in Washington. And even after that, there's still the problem of getting our new administration's cabinet approved by Congress and in place. Then perhaps, hopefully, we can begin to heal politically. We will all, hopefully, have learned from the unfortunate events in Washington on Wednesday that fighting among ourselves only leads to our own destruction.

Beyond our political problems, we have the COVID problem. On a daily basis, new records for infections, hospitalizations and deaths fill our news reports. And yes, now we have vaccines, but their actual use seems to be moving at a painfully slow pace. The information on when and where we are to get the injections is spotty and slow to come, and we need it now!

It's amazing how accurate the predictions of medical science have been. We were told how quickly the COVID would spread, and it did. We were also told that it would be much worse this winter, and it is! They have also told us that some 70% of us would have to get a vaccine – or get the virus and get over it – in order to create herd immunity and stamp out the virus. We can count on that being also true. For all our sakes, we need the vaccine!

The Blotter

Lampasas Police Dept. blotter for Thursday shows a suspicious person reported in the 300 block of E. 4th St. at 7:27am. Also in the 7 o'clock hour, Branden Tengler, 29, of Kempner was arrested in the 1000 block of Bridge St. for burglary of a building, evading arrest and a parole warrant for possession of a controlled substance at 7:37am. The afternoon shows a minor accident in the 1700 block of CTE at 12:48pm, a shots fired call in the 400 block of W. 6th St. at 4:21 and a noise complaint in the 1300 block of W. Ave B at 4:48pm.

The Sheriff's Office Blotter for Thursday shows Lometa with an alarm call and an animal issue. In Kempner, officers dealt with animal issues, a reported trespassing, a welfare check, medical calls, a reported harassment, civil matters, delivery of a message and a code enforcement call. Out in the county there were reported frauds, medical calls, reported disturbances, animal issues, and a narcotics call. Deputies went into Cove on medical calls, animal issues, and civil matters.

The Copperas Cove Police Dept. sent the following press release: On January 7, 2021 at approximately 12:42 PM, officers responded to the area of Donna Avenue and Hughes Avenue for a report of a gunshot victim. Upon arriving to the area, officers located a male victim who sustained a gunshot wound. Officers rendered first aid until the arrival of Copperas Cove Fire & EMS. The victim was transported by ambulance to Scott & White Hospital in Temple, Texas and is in stable condition at this time. The investigation is ongoing and additional information will be provided at a later time when it becomes available. If you have any information regarding this incident, please contact the Copperas Cove Police Department at 254-547-8222 Ext. 6894, or Copperas Cove Crime Stoppers at 254-547-1111 or online at www.tipsubmit.com.

The Burn Ban is in Effect!

Lampasas Fire Chief and Emergency Management Coordinator Jeff Smith has passed on, not only that all of Lampasas' nursing homes either have had vaccine injections for staff and residents, or they will have had them by the end of the weekend. He said they will also see local firemen, first responders and policemen being offered the vaccine within days.

We are also learning that many people, even when they fit into priority categories for the vaccine, are refusing them. This seems to occur with many younger adults.

Still no word on when and where those over 65 and those with medical conditions, or teachers and school workers are to get the vaccine. So far as we know, there has been no vaccine supply sent into this area for people in this second phase category. We have heard that it could occur next week.

The only guess we can make is that those of us who have a primary care doctor should contact that office and ask for advice. Those without a certain doctor should get in contact with their favorite pharmacy for advice. As soon as we get some better advice, we will pass it on!

Badger Sports

Lady Badger Basketball Tonight!

Though the Badger Boys team finds them without an opponent tonight – thanks to the virus and confounding schedule changes – the **16-3 Lady Badgers will be on** the road in their second District

game.

Coach Mark Myers and the 20-21 Lady Badgers are at Brownwood in a game that is super important for them.

The girls played the 3-9 Gatesville team on Tuesday in their first district game and lost it 49-55. It was not a good thing as Lampasas, at 16-2 going in, was the better team on the court. But, they just made some mistakes at the wrong time. They were ahead for the vast majority of the game, but in the 4th quarter they just “blew it!”

Now, our girls carry their wounds to Brownwood (7-9) where they meet a likely tougher game, and it's a really big game for them.

Funeral/Death Notice

Kenneth Dell Randall, 95 years old, passed away at home surrounded by family on Friday, January 1. He was a longtime resident of Lampasas County, a rancher, a family man, and a member of Adamsville Baptist Church.

Funeral Services will be held at 10am. Saturday, January 9, at Adamsville Baptist Church with interment to follow at Center Cemetery. There will be a celebration of life luncheon at Adamsville Community Center following the interment if you would like to bring a covered dish.

Kenneth was born on November 12, 1925, in the family home under an oak grove before the doctor could arrive. He was the 6th of eventually 9 siblings to Albert Gallatin Randall and Mary Atkinson Randall. He was, however, the last surviving sibling. Kenneth was preceded in death by both his parents and his wife of 27 years, Frances Gloria Randall; as well as his dear friend for 26 years, Evelyn Laveya Joseph. His eight siblings also preceded him in death; Floyd "Pete" Randall, Mattie Floy Eddy, Udel Wooldridge, Ethel Goins Carter, Earnest Randall, Martha Bryant, Stella Faye Ferrell and Patsy Baker, and their spouses. His nephews; Richard Dale Wooldridge, Willis Dee Goins, and Roland Ferrell.

Survivors include his children, grandchildren, and great-grandchildren; Phillip King (Jean Loya), Linda (Ron) Porter, Katy (Ryan) Grant, Boone, Ada, Jed Hartley, Lori Beth Porter, Samuel (Rachel) Porter, Albert Randall, Ariel Jenkins, Jacques Randall, McKennah Randall, Zechariah Randall, Judy Randall-Frank (Mark), Stephanie Wiebe (Daniel), Jennifer (TJ) Riley Rolan, and his same-as-his, Sandra Griffin Poole. Nieces and nephews; Deb (Terry) Lindsey, Vernon (Lisa) Baker, Camillie (Les) Plagens, Leland (Deb) Wooldridge, Quinton Brice (Silvia) Eddy, Jim Eddy, and their families.

Kenneth was a good, hardworking man who treated everyone as he wanted to be treated. He dressed plain but has many jewels in his heavenly crown.
