Notification from Lampasas ISD

This past week policy revisions were approved by the Lampasas ISD School Board. These policies put into place the availability of unassigned epinephrine auto-injectors and the Opioid Antagonist Narcan in our local schools. Lampasas ISD's Director of School Health Services Donna Clark has been very proactive in obtaining these life saving drugs to have on hand for our local students as well as training staff to be alert for signs of anaphylaxis and Opioid overdose. Following are the two treatments now available if necessary:

WRITTEN NOTICE OF UNASSIGNED EPINEPHRINE AUTO-INJECTORS IN SCHOOL

Texas Education Code §38.215 states, "If a school district, open-enrollment charter school, or private school implements a policy under this subchapter for the maintenance, administration, and disposal of epinephrine auto-injectors, the district shall provide written notice to a parent or guardian of each student enrolled in the district or school. Notice required under this section must be provided before the policy is implemented by the district or school and before the start of each school year."

Lampasas ISD Department of School Health Services and the district's Director of School Health Services manages Unassigned Epinephrine Auto-Injector policy implementation, including training of school personnel, and the acquisition or purchase, usage, expiration, and disposal of unassigned epinephrine auto-injectors within the school district.

Unassigned epinephrine auto-injectors are stocked by Lampasas ISD and are indicated for children or adults who are believed to be experiencing anaphylaxis on a school campus and do not have or carry their own emergency medication. Anaphylaxis is a life-threatening allergic reaction that may involve multiple body systems.
