Overnight Sunday: Partly cloudy skies with a low temperature near 55°. Wind will be from the S near 10-15 mph.

Local Ranchers

Donate Supplies

Lampasas County PROUD...!! A convoy of your local Lampasas & Burnet County ranchers headed out Wednesday with donated hay, water tanks, fence supplies, feed & more...!!! They were headed to assist where the fires were last week, in Rising Star and Carbon. We hear that there is still a need for supplies in the areas where the fire was, probably for several months. When you see a farmer & rancher say THANKS...!!

Elevated Risk of Wildfires

(Texas Tribune) Much of Texas is at an elevated risk of wildfires this weekend and early next week because of higher-than-usual temperatures and a worsening drought, according to Texas A&M Forest Service analysts and the state climatologist.

At the same time, vegetation that grew during last summer's rains is now dormant and brittle — perfect fire starter.

"We are getting into a period of high drying and so we do expect to see fire activity to increase over the weekend and into next week," said Luke Kanclerz, a wildland fire analyst at Texas A&M Forest Service. He said areas of west central Texas are most at risk of additional fire activity.

Already this month, almost 123,000 acres have burned across the state, according to data provided by Texas A&M Forest Service, more than the previous three Marches combined. The hardest-hit area is Eastland County between Abilene and Fort Worth, where more than 54,000 acres have burned and a sheriff's deputy died while trying to rescue others from the flames last week.

The Blotter

Lampasas Police Dept. Blotter for Thursday shows an early report of a suspicious person in the 100 block of E. 6th St. at 1:35am, and a harassment was reported in the 900 block of S. Willis at 9:54am. The afternoon shows a suspicious person in the 500 block of N. Willis St. at 2:04pm and a minor accident at the intersection of Old Georgetown Rd. and CTE at 3:34pm. A suspicious person was reported in the 200 block of Riverview Dr. at 5pm and another minor accident at the intersection of S. Walnut and W. 1st St. at 6:55pm. There was a reported theft in the 1000 block of Mill St. at 7:32pm.

The Lampasas County Sheriff's Dept. Blotter for Thursday shows Lometa with medical calls, and a report of an abandoned vehicle. In Kempner there were reported disturbances, accidents, medical calls, animal issues, a reported harassment and an alarm call. Out in the county there was a noise complaint, medical calls, a grass fire, an accident and a warrant was served. Deputies went into Cove on a civil matter and a livestock issue.

The Jail Log shows the arrest of 36 year old Byron Anderson-Dawn of Killeen for indecent exposure. Also arrested was 47 year old Bernard Uhler II for criminal trespass, possession of a controlled substance PG1/1-B 1-4 grams and theft of property less than \$750.

The fire in Eastland County was unusually intense, experts said, because of a weather phenomenon known as a Southern Plains Wildfire Outbreak, or SPWO, which is characterized by dry vegetation, dry west-southwest winds, low humidity, above-average temperatures and sunny skies. Since 2005, SPWO fires have accounted for only 3% of wildfires reported in Texas but almost half of the total acres burned.

"Last week was a transition to more high-impact fires, meaning they had a higher resistance to control and are much more difficult and dangerous for firefighters to suppress," Kanclerz said.

The Panhandle, parts of the Hill Country and South Texas have also seen increased wildfire activity in recent weeks. A high risk of fire activity in those areas and west central Texas is projected to remain through the rest of the spring, experts said, because temperatures are expected to keep climbing as the summer approaches and precipitation that could provide relief is likely to remain elusive.

Unlike much of the West, Texas has two fire seasons: one in the late summer and fall growing season, when temperatures are typically highest and one in the dormant season between winter and spring, when vegetation is dead, dormant or very dry. Dry springs can be particularly dangerous because spring is typically the windiest season for the state, Nielsen-Gammon said.

Almost the entire state is considered in a drought, according to the U.S. Drought Monitor. About 40% of the state — mostly north and west Texas — is in an extreme drought, meaning soil moisture is very low, crops fail to germinate and fire danger is high.

Badger Sports

Badger Baseball

Badger Baseball has a bye this week. They will be back on Tuesday to host Gatesville at Lampasas High School.

Lady Badger Softball

Lady Badger Softball has a district game tonight at home as they host Brownwood. The game will be broadcast on KCYL 1450am, so if you can't make the game, tune in!

The Ladies will travel to Stephenville next Tuesday for district play.

Happy Birthday

Danny Donovan-74

Tim Miller-58

Jason Miller-30

From TxDOT

This past week we had a fast evolving emergency with the wildfires across Brown, Coleman and Eastland Counties.

Information during these times can get interesting to filter, between all the agencies and the chatter from the public on social media. I want to remind everyone that we all need to verify information before it is disseminated to the public. Road closures and situations can be falsely reported and result in complications for the public and for emergency services/support agencies if this information is reported inaccurately.

For road closures, always verify with TxDOT or check www.DriveTexas.org. I am your point of contact for all things TxDOT in the Brownwood District, which includes Brown, Coleman, Comanche, Eastland, Lampasas, McCulloch, Mills, San Saba and Stephens Counties. If you don't have my cell phone number, please make note that it is 325-203-0671. I am here to make sure correct information is given out to the public. Please feel free to call me anytime, even late at night during emergencies. I want to help you collect correct information. If I don't have the answer, I will find the information you need as soon as possible.
