## TxDOT to do Feasibility Study for Hamilton Relief Route

The Texas Department of Transportation (TxDOT) is conducting a Feasibility Study to evaluate Alternative Alignments for a Relief Route around the City of Hamilton in Hamilton County. TxDOT is also proposing to widen US 281 from US 84 (Evant, TX) to SH 6 (Hico, TX) in Hamilton County.

An in-person meeting will occur on Wednesday, May 3rd, at the Hamilton Junior High School Cafeteria located at 400 S. College St. at 6pm and will be an open house format where the public may come and go at their convenience. Staff will be available to answer questions and accept comments. The virtual meeting can be viewed Wednesday, May 3rd starting at 6 p.m. through Thursday, May 18th at 11:59 p.m. Materials will be posted to the project website: <http://www.txdot.gov/projects/projects-studies/waco/us281.html>.

The Feasibility Study is evaluating Alternative Alignment concepts for a new location relief route located around the City of Hamilton to alleviate US 281 traffic congestion in downtown Hamilton. New alignment and widening options would require additional right of way to accommodate the potential US 281 improvements and traffic congestion alleviation being explored by the project and the study. Further environmental studies would be needed to determine environmental impacts. Project and study materials are available online at the project website.

## Employment Scams in Texas

In the first quarter of 2023 (January thru March), reports of employment scams to the Better Business Bureau (BBB) Scam Tracker from Texas residents doubled and money loss increased substantially compared to the typical rates the (BBB) receives at the beginning of the year. Last year for the months of

January-March the BBB had 59 reports of employment scams for losses of \$15,195. For the same time period in 2023, the BBB saw 231 reports or employment scams and losses of \$128,189.

While most consumer reports BBB receives are regarding fraudulent employers promoting data entry or package reshipment positions, graphic designer, secret shopper, and human resources offers are also frequently used. All reports include a work-from-home or remote working capability.

Contact is made most often through email from someone claiming to represent a made-up or impersonated company who came across the recipient's email through a job board, LinkedIn, or in response to an application they sent in. Shortly afterward, the conversation will move to an online messaging system such as Skype or Telegram to arrange and conduct an interview. Often, the interview will be conducted entirely through text with no voice or video call and finishes with an immediate job offer starting the very next day. After accepting the job offer, employment scams progress down different paths depending on the position and industry.
