In Lampasas Radio Studios

Tina Matney and Robin Gradel were in the studios this morning to visit with Ronnie Witcher and Angel Garcia about this Saturday's Lampasas Association for the Arts (LAFTA) event "Arts in the Park for Kids".

It will take place this Saturday April 15th from 10am-2pm at Campbell Park near the Sculpture Garden. This is a free event and there will be 12 different stations set up with a different art activity at each one for the kids. You will be able to do as many or as few activities as you like. Face painting will be available and there will be a free hotdog lunch available, and bottles of water.

There will be entertainment all day at the pavilion; musical, theatrical and dance performances, mostly from Lampasas High School students and student groups. The ladies also said local artist and musician Bobby Starr would be there.

While there, check out the Lampasas Middle School 6th grade art class sculpture in the Sculpture Garden, 'Pop Art Portal'. This was designed and created by the kids in the art class.

LAFTA starts gearing up for this event early in the year and has been working on 'Art in the Park' since January. The next event for LAFTA is the Boots and Blazers Ball on October 14th of this year and Bob Wills and the Texas Playboys under the direction of Jason Roberts will be the band. The Boots & Blazers Ball is a fundraiser for LAFTA providing funding for their events in Lampasas.

Rabid Bat Reported in Copperas Cove

Copperas Cove Animal Control released a statement yesterday that last Wednesday a resident of Copperas Cove was bitten by a bat in the 400 block of Lutheran Church Rd. The resident was able to kill the bat, and went to the hospital and took the bat with them. When the person returned from the hospital, Copperas Cove Animal Control received the bat and it was sent to the

Texas Dept. of Health Laboratory in Austin. On April 7th, Copperas Cove Animal Control received notification that the bat was infected with rabies.

Anyone who thinks that they or their pet or anyone they know has had contact with a bat or any other wild animal in this area should immediately contact Copperas Cove animal control at (254)547-5584 and also contact their doctor and/or veterinarian.

Signs of rabies infection in a human may include but are not limited to fever, headaches, fatigue, trouble breathing, possible paralysis and/or coma. In pets the symptoms may include fever, chewing at the site of the infection or bite, erratic behavior, walking aimlessly, restlessness, aggression and generally unnatural behavior for that animal. Citizens are warned not to approach or have contact with wild animals, or to allow their pets to approach wild animals.

Anyone seeing a wild animal acting strangely should contact animal control immediately.
