COVID-19 Update

Lampasas County Health Authority Dr. Georgia Hay contacted Lampasas Radio this morning and let us know there are **5 new cases** of covid-19 in Lampasas County.

In the state of Texas, 153,011 people have tested positive as of June 29th. That is 4,283 more than the day before and 38,130 more than a week ago.

Leaders in larger Texas cities are imploring Governor Abbott to either re-start the shelter in place order, or give local leaders the authority to do so. Travis county Judge Biscoe has asked Governor Abbott "to roll all the way back to Stay Home orders based on worsening circumstances," further cap business occupancy, mandate masks, and ban gatherings of 10 or more people.

While Lampasas County may not have the problems of more populated counties, we still need to follow the protocols of hand washing, using hand Sanitizer, social distancing and wearing a cloth mask when social distancing is not an option and stay home if you can.

When Lampasas Radio checked this morning, there were 32 ICU beds and 91 ventilators available in our Trauma Service Area. The counties in our Trauma area are: Bell, Coryell, Hamilton, Lampasas, Milam, and Mills.

District Court Notes

Lampasas County Courthouse was the site of a 27th District Court Docket Call on June 26th. Presiding over the Court was 27th district Judge John Gauntt. Cornellius Dorsey failed to appear on the charge of possession of a controlled substance PG1 less than a gram and a warrant was issued for him.

Altogether 23 cases were brought to the court, 19 of them involved men and 4 involved women.

There were 7 cases involving possession of a controlled substance, 5 for under 1 gram, with one in a drug free zone, 1 case for possession 1-4 grams, and 1 for 4-200 grams.

Felony cases for theft or burglary numbered 4. There was 1 burglary of a habitation, 1 case for burglary of a building and 2 cases for burglary of vehicles with 2 or more convictions, those 2 cases with the same defendant.

There was 1 case for unauthorized use of a motor vehicle. There was one case for debit/credit card abuse of the elderly, and two cases for debit/credit card abuse, as well as one case for engaging in organized criminal activity.

Crimes causing personal harm included 2 for aggravated assault, one for aggravated sexual assault of a child, one for invasive visual recording and one for indecency with a child/sexual contact.

Of the 23 cases presented to the court, 3 cases were settled with Joseph Shanks of Buckholts pleading guilty to two charges of possession of a controlled substance PG1 less than a gram. Mr. Shanks was sentenced to 9 months state jail on each charge with sentences running concurrent and credit for days served. Javier Gutierrez pled guilty and was sentenced to 20 years in TDCJ with credit for time served, for his part in the murder of Vance Helzer.

The remainder of the cases were reset or had trials set for a future date.

Beware of the Heat

During extremely hot and humid weather, your body's ability to cool itself is challenged. When the body heats too rapidly to cool itself properly, or when too much fluid or salt is lost through dehydration or sweating, body temperature rises and you or someone you care about may experience a heat-related illness. It is important to know the symptoms of excessive heat exposure and the appropriate responses. The Centers for Disease Control and Prevention provides a list of warning signs and symptoms of heat illness, and recommended first aid steps. Some of these symptoms and steps are listed below.

Heat cramps may be the first sign of heat-related illness, and may lead to heat exhaustion or stroke.

Symptoms: Painful muscle cramps and spasms usually in legs and abdomen, heavy sweating.

What to do: Apply firm pressure on cramping muscles or gently massage to relieve spasm, give sips of water unless the person complains of nausea, then stop giving water. (cont'd on back)
