TxDOT Holding Meetings Regarding 183 North

The Texas Department of Transportation invites the public to participate in a virtual or in-person meeting for the proposed US 183 N widening project in Lampasas County. To view the virtual public meeting, visit the TxDOT website at www.txdot.gov and search "US 183 Lampasas County" on Tuesday, July 12, 2022; materials will be posted by noon. Sign up for email updates on the project while online by clicking the subscribe button in the top right corner of the webpage.

In-Person Public Meetings will be held at the following locations and times:

Tues., July 12, 2022 5:30pm– 7:30pm Lometa ISD Cafeteria 100 N 8th St. Lometa, TX 76853

Thurs., July 14, 2022 5:30pm– 7:30pm Old Lampasas Middle School On Western Ave. between North Ave. and Ave. B. Lampasas, TX 76550

The purpose of the project is to improve the safety and mobility of US 183. The proposed project would, subject to final design considerations, require additional right of way in some locations.

Construction timing is not yet known.

The limits of the proposed project will be from just south of Lometa at US 190 to just north of US 281 in the city of Lampasas.

The proposed US 183 widening project includes the following:

- * Adding additional pavement width where necessary, for a total of four travel lanes, two in each direction
- * Dividing the roadway with a flush center median for making left-hand turning movements
- * Improving shoulders and guardrails
- * Improving drainage by upgrading culverts
- * Reducing slope (steepness) of ditches

State Sale Tax Revenue

State Sales Tax Revenue Totaled \$3.7 Billion in June

(AUSTIN) — Texas Comptroller Glenn Hegar today said state sales tax revenue totaled \$3.68 billion in June, 16.4 percent more than in June 2021.

The majority of June sales tax revenue is based on sales made in May and remitted to the agency in June.

As a result of a sustained period of historically high revenues, later this month Hegar will provide an update to the Certification Revenue Estimate published in November 2021. That update will result in a significant increase in estimated revenue available for the 2022-23 biennium.

"State sales tax collections surged in June, outpacing inflation, with strong growth in receipts from all major economic sectors," Hegar said.

"The strongest growth was in sectors driven primarily by business spending, with receipts from the mining sector nearly doubling collections from last year, and with receipts from the manufacturing, wholesale trade and construction sectors also up sharply.

"Receipts from restaurants and the services sector were strong once again in June, as consumers continue to spend more on live events with entertainment options becoming available that were not available the last two years.

"While receipts overall from retail trade were strong, receipts from furniture and home furnishings stores, as well as sporting goods and hobby stores, declined from year-ago levels for the third straight month, another indication consumers are switching spending from goods to services."

Total sales tax revenue for the three months ending in June 2022 was up 12.5 percent compared to the same period a year ago. Sales tax is the largest source of state funding for the state
