## Water Conservation Tips from the City of Lampasas

**With the triple-digit heat** rolling merrily along (10 days in June and 15 days in-a row and counting for July) and no rain in sight, local water suppliers are asking residents to conserve water. This morning, Stillhouse Hollow Lake was at 606.55 feet elevation.

The City of Lampasas offers these suggestions that can have a big impact on water demand in our community and include: Avoid wasting running water as much as possible, Turn off the faucet while brushing your teeth, Only run the washing machine and dishwasher when you have a full load, use a water efficient flush toilet, take quick showers, use a low flow shower head and faucet aerators, find and repair leaks, don't over water your lawn or water during peak periods, and install rain sensors on irrigation systems. Water during the cooler parts of the day.

The City of Lampasas has implemented our Stage 2 Water Conservation & Drought Contingency Plan. For information regarding water use restrictions please visit the following link;

<https://www.lampasas.org/DocumentCenter/View/3796/Stage-2-Response>

If you have any questions, please call City Hall at 512-556-8315.

If residents are having difficulty with utility bills, they can contact the Lampasas Senior Center at 512.556.2550 or stop by at 901 S. Live Oak and talk to the staff between 9am and 4pm.
