Brad Buckley State of the Union**

Brad Buckley, of the Texas House of Representatives House District 54, released this statement yesterday concerning Texas in nursing homes:

"Today I joined both Senate and House colleagues to call for modifying the restrictions placed on family visitation of our nursing facilities, assisted-living centers, and state living facilities. These vulnerable Texans deserve a safe and secure environment but the extended period of isolation is harming those we seek to protect. There must be carefully thought out modifications of visitation policies to allow families to reconnect with loved ones while keeping their vulnerable health status a high safety priority. I have more personal experience with family entrusted to nursing facilities and memory care centers than I wish I had, and direct interaction was so crucial in providing quality of life for our family members. Residents of these facilities deserve the love, dignity, and hope that only family can provide, and families deserve to be a part of the caregiving team during this unprecedented time."
