City of Lampasas Part of Ransomware Attack

Lampasas Radio received the following press release from Sammy Bailey, Chief of Police for the City of Lampasas:

“LAMPASAS, TEXAS. On the morning of August 16, 2019, the City of Lampasas was one of more than 20 entities in Texas that reported a ransomware attack. The City of Lampasas I.T. Director Monica Wright implemented response protocols for this type of incident.

Later that morning, the State Operations Center (SOC) activated in response to the attacks.

There have been various State and Federal agencies that have provided support and responded to the incident; including the Texas Department of Information Resources, Texas Division of Emergency Management, Department of Homeland Security, Federal Bureau of Investigation-Cyber Crimes Unit, Federal Emergency Management Agency, Texas Military Department, Texas A&M University System’s Operations/Critical Incident Response Team and others. Responders confirmed there have been twenty-two entities, which were affected by the attacks. The majority of the affected entities were smaller local governments. The State of Texas computer systems and networks were not affected.

The evidence gathered indicates the attacks came from a one single threat actor. While this attack did have some impact on City operations, the City implemented its continuity of operations plan and continued to provide City services with minimal impact to our citizens.

The City of Lampasas Information Technology Department was quickly able to have the City transition into recovery mode, full recovery is priority at this time.

Based on forensic investigation, it was determined that no customer payment or personal information held by the City of Lampasas was compromised in this attack.

The Texas Department of Information Resources (DRI) is leading the response to the ransomware attack across Texas.

Due to this being an on-going Federal criminal investigation, we are not able to provide additional information about the attack at this time.

As of press time, the City of Lampasas utility department is still offline. They are assuring customers that no cut-offs, or late notices are being processed. You can make payments by cash, check or money order only. They hope to be back on line by Friday morning.
