## In Lampasas Radio Studios

**This morning the City of Lampasas Police Chief Jody Cummings** was in Lampasas Radio studios to visit with Ronnie Witcher.

They visited about the School Resource Officers (SROs) in our local school district, there are 4 SROs at this time. The Lampasas Police Department, the City of Lampasas and the Lampasas ISD work collaboratively on these positions and hope to fill the 5<sup>th</sup> position in the next few months.

The School Resource Officer is a tricky position, according to Chief Cummings. For one thing, there are multiple supervisors; one with the police department, one with the city and the administration either from the school district or the specific campus where the officer is working. The SROs often have issues with traffic in and around schools, parents, and the neighbors of the schools. The SROs try to do the best they can to keep everyone calm, keep

school moving along and to be mentors to the students and teachers.

Chief Cummings also shared about the 2023 National Night Out and that Local Public Safety Organizations are looking ahead to the annual National Night Out event on Tuesday October 3rd of this year. The event here in Lampasas will be from 6-8pm at the HEB parking lot and offers an opportunity for residents to connect with local law enforcement and first responders to promote crime prevention awareness and send the message that we are all working together to prevent crime in our community.

Join the Lampasas Police Department, the Lampasas Fire Department and other members of the public safety community for fun activities, food, and to support our community.

## Fire Near Pidcoke Reignited Yesterday

The 'Rocky J Fire' near the town of Pidcoke in Coryell County reignited yesterday and was spreading toward the west. As long as responders are in the area, residents who do not live in the area are asked to avoid any travel to the area.

CR 147 in Coryell County is still closed. Yesterday Texas A & M Forestry Service (TFS) had a 737-300 retardant drop, and two single engine air tankers (SEATs) out of Wichita Falls were dropping water and Blackhawks were on the scene as well doing aerial drops.

According to TFS at 8:25pm yesterday the fire had grown to 138 acres and was 75% contained.

A fire can start easily anywhere right now; we all need to be vigilant and very cautious!
