## Texas Economy May be Slowing

A lack of employment growth and a slight increase in unemployment from July to August, along with fewer employers raising wages, are signs that Texas' economy is slowing, economists at the Federal Reserve Bank of Dallas said in a report released Thursday.

The report, written by Pia Orrenius, the Dallas Fed vice president and senior economist, and Research Analyst Ana Pranger, said the number of employed Texans held steady at around 13.5 million last month, while the state's unemployment rate increased from 4% in July to 4.1% in August.

In a video accompanying the report, Orrenius suggested the slowed economic activity may help slow inflation in Texas. "While official statistics have yet to show a meaningful easing of price pressures in our region, our surveys suggest a rapidly increasing share of Texas companies are refraining from increasing prices," she said in the video.

About 75% of Texas firms either kept prices the same or lowered them from August to September, according to the video.

Meanwhile, a smaller percentage of employers gave their employees raises in August compared to July, the report said. Only 38% of manufacturing firms and 29% of service companies boosted wages in August, the lowest monthly figures since spring 2021.

Despite the recent slowdown, the report said Texas job growth is expected to exceed 4% this year, which would exceed the state's historical average growth rate of 2%.

## BARK to Keep Students Safe

COPPERAS COVE, Texas (KWTX) - A Central Texas school district is incorporating an added layer of technology to keep students safe.

The Copperas Cove Independent School District has started using a program which monitors students' activities online and sends the district alerts about potential threats including violence, cyber bullying, suicide and more.

"We want to make sure that the district is the safest place for our kids," said Maron Samuel, Chief Technology Officer at CCISD.

CCISD is a 1-to-1 district, meaning every single one of the district's more than 8,300 students has a district-issued device; they all get to use it at school, and grades six and above can take it home. Now those devices are being monitored 24/7 with new technology called Bark for Schools.

"Bark is a free tool that we use to monitor our safety for our kids at CCISD--safety and security is a critical point for us, and we believe that the school district should be a very secure area for our students," said Samuel.

The program tracks students' district-issued devices for all kinds of threats including self-harm/suicide, profanity, depression, bullying, sexual content, drug/alcohol related content, violence, hate speech, weapons and anxiety.

Bark will 'bark' at school officials by sending them alerts when one of those categories is triggered.

According to its website, it monitors more than 6,000,000 children across the U.S. and has detected almost 630,000 severe self

-harm situations and 2.6 million cases of bullying.

It's free for school districts to use: so far more than 3,300 districts across the U.S. are taking advantage including CCISD which, through Bark, is proactively monitoring student text messages, YouTube, emails, and more than 30 different social networks for potential safety concerns, officials say.

## Sports

### Badger Tennis

From Tennis Coach Peiser:

These 7 seniors will be playing their last home match Tuesday at 4 against Gatesville that will decide the District Champion: Clayton Shaw, James Vasquez, Amore Zapata, Madison Miles, Sierra Vincent, Jordan Venegas and Nate Champion.

We played Cove last night as a practice match for our last district game coming up

We swept the doubles with some good play tonight in some close matches. We won 5 of the 6 girls matches and won 4 of the 6 boys matches giving us a 16-3 victory tonight. 9-2 for the season so far. 3-0 in district.

This was a good night of play for us. All of these close matches (8 tie breakers) will give the players an edge when they see this kind of play again on Tuesday and matches in the future. They will know what it feels like and be able to control their nerves better and play with a little more drive and confidence.
