The forecast high temperatures early next week range from 75°-85°.

## City Manager Notes

**Lampasas City Manger Finley de Graffenried** was in Lampasas Radio studios this morning for his weekly visit with Ronnie Witcher.

The City Manager spoke about the upcoming City Council Meeting on October 12<sup>th</sup>, and said it looks like a light agenda. He reminded residents that the brush chipping program begins November 2<sup>nd</sup> and to look at the city webpage or call the city to find out when your area will be served.

The City Council decides where the capital expenditures (large projects) are completed. As Mr. de Graffenreid stated "the budget is a roadmap for the staff and the town". The plans are to finish up the W. Ave E project, and do some sewer line updates/upgrades on W. Ave C. Early in the spring the City will begin taking bids for East 3<sup>rd</sup> St. to include some sidewalk upgrades, the road, and curb and gutter. Also, the City is looking to replace some equipment such as the street sweeper and the vacuum truck.

Ronnie Witcher asked about the expense for new utility poles with the upgraded internet possibilities in the near future. It was explained that in 2014 & 2015 a company was brought in to assess the utility poles in the city and with the exception of a few poles, they have been upgraded or replaced. Developers can provide underground utilities for new subdivisions if they choose, at their expense. This may become more popular in the city. Ronnie Witcher and Mr. de Graffenreid spoke about possible employers coming to the city, and that the city needs a viable, well trained workforce to accommodate employers. The City Manager spoke about possible employees being trained in the "soft skill" training, people skills communication, and the like. Ft. Hood is also a possible resource for future employees.
