The Weather

The High yesterday 85° The Low this morning 69°

While the humidity is high in our area, the precipitation is expected to remain to our east. The high temperatures today will depend on how long the clouds take to clear the area. This weekend will begin another extended rain-free forecast, and expect well above normal temperatures this weekend. October weather can be pleasant, but the forecasters are calling for a sweaty weekend due to the tropical moisture brought in by hurricane Delta. Sunday looks to be the hottest day of the weekend and we may see the triple digits. Temperatures Monday will still reach the upper 80's before the weak cool front moves through.

Today Mostly cloudy with gradual clearing, with a high near 85°. Wind will be NE at 5-10 mph.

Tonight: Partly cloudy skies and a low near 64°, with wind becoming calm.

Saturday: Sunny with a high temperature near 91° and a light W-NW wind.

Saturday night: Look for mostly clear skies with a low near 64°. Light E-SE wind will become calm.

Sunday: Sunny and hot with a high near 98°. Winds will be S-SW at 5-10 mph. .

Sunday Night; Clear and 69°. Winds will be south at 5-10 mph.

Columbus Day: Sunny and 88° with SW wind near 10 mph becoming north in the afternoon
