## TxDOT Meeting about Lampasas Bypass

The Texas Department of Transportation (TxDOT), in coordination with the City of Lampasas, invites the public to participate in a virtual open house with an in-person option to gain input through a feasibility study about a potential Lampasas Relief Route.

This second open house will present proposed conceptual route study areas, which are in response to public feedback received at the first open house. Although no specific alignment is yet determined, the study limits would connect US 281, US 183, and US 190 on the southern side of Lampasas to US 281 and US 183/US 190 on the northern side of Lampasas.

As part of the overall planning process, the feasibility study will help identify the purpose and need of a proposed relief route project. Currently, US 281, US 183 and US 190 traffic runs through the middle of Lampasas. A key objective of the study is to allow future through traffic, including trucks, to avoid central Lampasas while minimizing impacts to adjacent properties, businesses, railroads, utilities, and the environment. The study began in May 2022 and is anticipated to be complete in the Fall of 2023. If the study concludes that a relief route is feasible, additional work will be needed on preliminary design, right-of-way needs, environmental study, and funding prior to a final relief route decision. Construction timing is not yet known.

The virtual open house materials including a prerecorded presentation will be available by noon on Thurs., Nov. 17, 2022, on [www.txdot.gov](http://www.txdot.gov), search "Lampasas Relief Route."

The in-person open house will be held at the Lampasas Middle School Cafeteria, 902 South Broad St., Lampasas, TX, on Nov. 17, 2022, from 5:30-7:30pm. During the in-person meeting, a live

presentation will be held at 6pm. A live question and answer session will not be conducted; however, questions will be answered by staff during the open house. A prerecorded copy of the same presentation will be available in the virtual open house.

The public is encouraged to submit comments, which must be received or postmarked by Fri., Dec. 9, 2022, at 11:59 PM, in the following ways:
