Hunting Fire Safety

Texas A&M Forest Service encourages Texans to protect our lands and all that we love this hunting season by being mindful of activities that may cause a wildfire.

From 2016 to 2020, Texas A&M Forest Service responded to 3,742 wildfires burning nearly 1.5 million acres. During that time, 37 percent of wildfires occurred during the major hunting season months of September through January.

"Texas A&M Forest Service wants all hunters to be safe this upcoming season," said Karen Stafford, Texas A&M Forest Service State Wildfire Prevention Program Leader. "We all have a role to play in protecting our state from wildfires, so remember to do your part and don't let a wildfire start." (cont'd on back)

The Burn Ban has been lifted until November 8th!

Here are some simple tips to help avoid accidentally starting a wildfire while hunting and camping this fall include:

* Avoid driving over and parking on dry grass - the heat from your vehicle can easily ignite the grass.

* Always check with local officials for burn bans or other outdoor burning restrictions. Each county in Texas sets and lifts their own burn bans. Make sure you know your county's burn ban status and if it restricts open flames and other heat-causing activities such as using charcoal. View the latest burn ban map here: <https://tfsweb.tamu.edu/burnbans/>.

* When using a cooking fire or campfire, never leave it unattended, and always make sure it is completely out by drowning it, stirring it and feeling to ensure that it is out cold before you leave.

* If you are taking a trailer out on your adventures, make sure that the tires are properly inflated, chains will not contact the road and that any loose metal will not continually hit anything else, all which can cause sparks.

* Always be ready to put out a fire should one start. Have a shovel and water with you in camp and have a fire extinguisher with you at all times.
